

SEASONAL OPERATOR

(Journeyperson Heavy Duty Equipment Technician)

The Deer Lake Regional Airport Authority Inc. invites applications from qualified individuals interested in working in a challenging and diversified work environment and who are looking to be part of a dynamic team. The Authority is accepting applications to fill the position of Seasonal Operator with Journeyperson HDET responsibilities. The employee will operate and use a variety of heavy equipment to clear and maintain all airside and groundside facilities, conduct general maintenance work and perform other related and non-related duties as assigned including ad hoc and planned maintenance on a fleet of light and heavy equipment deployed in airport operations.

This position is an integral part of Airport Operations and is required to ensure safe seasonal operations while working with another Airport Technician HDET to ensure all equipment runs smoothly in order to maintain safe operations on our airfield. The ideal candidate will be required to fulfill the following duties/responsibilities.

General Responsibility/Summary of Duties

Reporting to the Manager Operations and Team Lead, the employee in this safety sensitive role has to perform high quality maintenance and preventive maintenance, diagnostics, hydraulic system troubleshooting, overhauling and repairs to the fleet of unique equipment specific to the Deer Lake Regional Airport, as well as support vehicles and equipment. The employee is also responsible for all aspects of seasonal operations including; operating and maintaining heavy equipment, conducting and performing general maintenance and repairs on airport infrastructures; safely storing and applying chemicals and other agents; maintaining records and inventory control; and performing other duties as assigned.

Qualifications

Applicants must possess a valid Interprovincial Journeyperson Heavy Duty Equipment Technician Certificate, valid driver's license, Class 3 Equipment Operator's license with airbrake endorsement, and also have experience and training in operating various types of heavy equipment and related work experience as a certified Journeyperson with large equipment and heavy-duty equipment repairs with on-board computer diagnostics.

Certification or training in any of the following would be a definite asset and relevant attributes for this position; Airside Vehicle Operators Permit and Industry Canada Radio License, Occupational Health and Safety, Handling of Dangerous Goods, First Aid/CPR/AED, WHMIS, Power Line Hazard. Applicants who do not possess all of these qualifications must be capable of completing these requirements within the initial probationary period.

Salary and Benefits

This is a unionized seasonal shift-work position. An attractive salary and benefits package is offered in accordance with the provisions of the Collective Agreement.

Interested and qualified individuals must submit a detailed resume, including references and a current copy of their journeyperson certificate to the following address by 3:00 p.m. June 30th, 2022.
